

Please refer to the following instructions for offline MicroPython SDK installation. Then back to getting start guide.

1, Download the Zip files.

-  AmebaD_MicroPython_patch1_SDK_V1.0.0.zip
-  AmebaD_MicroPython_patch1_SDK_V1.0.1.zip
-  AmebaD_MicroPython_patch2_Tools_Linux.zip
-  AmebaD_MicroPython_patch2_Tools_Windows.zip

- Pick 1 of the patch1 SDKs. There is latest version SDK.
- Pick 1 of the patch2 Tools. Chose according to users' operating system. (Windows, Linux).

2, Unzip patch1 and patch2.

Please “unzip/extract” here for both patch1 and patch2. Then back to getting start guide. After unzip all patches, the SDK offline installation is done.
